

### **REMARKS**

Claims 183-191 are pending in the subject application. By this amendment, applicants have amended claims 183-191. Accordingly, upon entry of this Amendment, claims 183-191, as amended, will be pending and under examination.

Applicants maintain that the amendments to the claims raise no issue of new matter and respectfully request entry of this Amendment.

### **Election/Restrictions**

On page 2 of the September 2, 2004 Office Action, the Examiner acknowledged Applicant's election with traverse of Group III, claims 183-191, drawn to a process for preparing a pharmaceutical wherein the receptor is an NPFF2 receptor with the sequence of SEQ ID NO: 6. However, the Examiner stated that the traversal is not found persuasive and the requirement is still deemed proper and is therefore made final.

Applicants note that Group III as set forth in the June 4, 2004 Office Action recites a process for preparing an agonist or antagonist of the human NPFF2 receptor of SEQ ID NO: 6, ATCC Deposit No. 203255. Accordingly, claims 183-191, as amended, recite the human NPFF2 receptor of SEQ ID NO: 6 and ATCC Deposit No. 203255.

### **Claim Objections**

On page 2 of the September 2, 2004 Office Action, the Examiner objected to claims 183-191 for allegedly containing limitations drawn to non-elected claims.

In response, in an attempt to advance the prosecution but without conceding either the

need for amendment or the correctness of the Examiner's position, Applicants have amended claims 183-191 to delete those limitations directed to non-elected inventions.

Accordingly, Applicants maintain that the amendments obviate the Examiner's objection and respectfully request that the objection be withdrawn.
